

# Health Science Distinction Requirements

## Flathead High School

Health Science Distinction acknowledges graduating seniors that complete a course of study emphasizing a health sciences focus. To be eligible for this distinction, the student must complete all requirements outlined below. Students earning this distinction are eligible to wear a teal color cord at graduation.

### **To apply for Health Science Distinction, students must meet the following requirements:**

1. Successful completion of three credits of Biomedical Science and four credits of science including Organic Chemistry.
2. Cumulative GPA of 3.2.
3. Contribute to the Health Science Community by participating in one or a combination of the following:
  - HOSA club for a minimum of two years and have regular attendance at meetings and activities.
  - Science club for a minimum of two years and compete in two science fairs or Science Olympiads and have regular attendance at club meetings.
  - Three years of Biomed classes plus a Health Science related internship with a minimum of 30 documented hours. The internship must be completed outside of school hours and can be paid or volunteer.
  - Four years of Biomed classes plus a Health Science related internship with a minimum of 10 documented hours. The internship must be completed outside of school hours and can be paid or volunteer.
4. Submit an application, including a transcript, which proves the student has met the requirements.

English	4.0
